

Serial application VAG (Audi/Seat/Skoda/VW) v3.84

Datasheet (902x)

Pro-Line kit 902x contents

- Software activation code
- 2 x 2 to 16 pin cable A0903021-1

Vehicle Coverage

- Model Year 1989 to 2009
- Audi / Seat / Skoda / Volkswagen car and light commercial models

System Coverage

- 1F CAN network
- 00 All ECU
- CAN TP2.0 Protocol
- CAN 14229 UDS Protocol
- KW71 Protocol
- KW2000 Protocol
- Engine – Petrol
- Engine - Diesel
- ABS
- SRS
- Climate
- Suspension
- Steering wheel
- Instruments
- Heating
- Gateway data Bus
- Engine electronics
- 4W drive
- Anti Slip control
- Immobiliser
- Level Control
- Central locking
- Seat adjustment
- And much more.....

Functionality

- Function 01 – ECU information
- Function 02 – Read DTC memory
- Function 03 – Activate components
- Function 04 – Basic settings
- Function 05 – Clear DTC memory
- Function 07 – Recode ECU
- Function 08 – Monitor list
- Function 09 – Read single data
- Function 10 – Adaptation
- Function 11 – Login
- Function 16 – Security Access
- Long life service reset
- Module configuration
- ECU replacement
- Electronic parking brake service
- Throttle body adaptation
- Key coding
- Diesel pump adjustment
- ABS brake pump bleeding
- Reset adaption values
- Idle speed adjustment
- Snapshot
- And much more.....
