

Volkswagen / Audi Adapting Language variants (ECU 17)

It is possible to adapt the language variant on most mid/high specification dash panels via the 'Instruments - 17' module. This applies to vehicle manufactured from May 1999 to 2004 (non CAN).

To carry out any required function relating to the instrument cluster:

- Connect the Mt-Pro to the vehicle diagnostic connector
- Switch ignition on
- Select Audi/Volkswagen from the main menu
- Select '(17) Instruments

Once communicating with the Instrument cluster the following procedure should be carried out:

- Read and clear and DTC's (any permanent faults should be addressed)
- Ensure vehicle battery is fully charged
- Select '10 – Adaptation'
- Select 'Channel 04'
- Read/Set the value required in accordance with the table below

Language variants	Code
German	00001
English	00002
French	00003
Italian	00004
Spanish	00005
Portuguese	00006
Czech	00008

After carrying out this adaptation the following procedure should be carried out:

- Read and Clear DTC's
- Exit 'Instruments' system and disconnect Mt-Pro
- Cycle ignition Off / On
